

#### **About Antigen test kit (qualitative antigen test)**

- In Japan, PCR Test including LAMP Method and Quantitative Antigen Test are permitted for asymptomatic patient as appropriate test method, but Antigen test kit (qualitative antigen test) are not permitted.

- At the request of the destination, Antigen test kit (qualitative antigen test) is used for asymptomatic patient, and if the test result is positive, PCR Test or other appropriate test method may be performed based on doctor's judgement

Permitted test method in Japan are highlighted in light blue at the table below.
